Rep. Kahl would like to have a bill drafted to amend 20.003(4m) of the statutes.

Our understanding is that since the budget bill passed with a provision to waive this statute, then this section of the statutes does not now apply to any subsequent bill that would increase the amount of GPR spending beyond anticipated revenue.

Unless a bill contains a funding mechanism of some sort, Rep. Kahl would like to make it so that any bill that spends GPR must have a provision to waive 20.003(4m) if it would increase deficit spending.

In other words, he does not just want this section to apply to the bill that initially causes GPR expenditures to exceed revenue, but to the initial bill and any subsequent bills that would worsen the gap between spending and revenues.

2013 BILL

4

- gen. cat.

1

AN ACT ...; relating to: required general fund structural balance. ✓

Analysis by the Legislative Reference Bureau

Current law generally provides that the legislature may not enact any bill that would cause in the second year of any fiscal biennium general purpose revenue (GPR) expenditures to exceed taxes and departmental revenues. ✓ This provision applies only to the initial bill enacted during a fiscal biennium that would cause GPR expenditures to exceed taxes and departmental revenues and not to ^{the} enactment of any subsequent bill that would cause the gap between GPR expenditures and taxes and departmental revenues to grow. ✓

*

*

This bill provides that, if the Legislative Fiscal Bureau estimates that in the second year of any fiscal biennium GPR expenditures would exceed those taxes and departmental revenues paid to the state, then the legislature may not enact any bill that would increase GPR expenditures unless the bill provides additional funding for the expenditures. ✓

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill. ✓
